

Abhishek Gupta

Full Stack Web Developer

PROFESSIONAL SUMMARY

Adaptable Full Stack Web Developer proficient in React.js, JavaScript, and the MERN stack. Skilled in collaborative project development, leveraging Generative AI for innovative solutions. Effective problem solver and strong attention to detail.

PROJECTS

AI Course Generator | |

Next.js | React.js | Tailwind.css | Node.js | Express | MongoDB

- This is an individual project developed over the course of one month. It is an AI-powered course generator designed to streamline learning with the following key features:
- User authentication system including login, signup, and password recovery functionality.
- Automated generation of a comprehensive learning roadmap based on the user's chosen topic.
- Unit tests provided at the end of each section to reinforce learning.
- Ability for users to view their previously explored topics and seamlessly continue from where they left off.

WORK EXPERIENCE

Aug '24 - Aug '25

Swanirbhar

MERN Stack Developer

Built their entire digital presence from the ground up. Took them from a fully offline operation to having 80% of their users active on the platform, which cut manual workload by nearly 40%.

- Designed and delivered a full CRM system from scratch, including onboarding flows, personality mapping tools, and growth dashboard,
- Automated previously manual processes like user management and mentor-mentee matching,
- Improved engagement with clean dashboards and gamified progress tracking that actually made sense to users,
- Handled their main website overhaul plus several side projects along the way.
- Owned the entire development lifecycle and made sure everything shipped on time without losing sight of what the organisation actually needed
